WE CAME IN PEACE • 38 min. (2 cassettes)

Man's dreams and the realization of conquering space is captured in this documentary. Awarded a "special gold medal" in the International TV & Film Festival of New York as "a film of extraordinary strength." From the novels of Jules Verne to the moon landing by the Apollo 11 astronauts, historical footage shows the triumphs and tragedies of the U.S. space program as well as early experiments in rocketry by Robert Goddard, the war-time use of German V-2 rockets, and the first successful space flight by a Russian cosmonaut. Narrated by NBC newsman Frank McGee.

UNSEEN JOURNEY 25 min.

Oil travels many unseen journeys before it reaches the refinery . . . each a tribute to man's scientific skill, ingenuity and determination. This creative film dramatically shows how oil is brought to the surface, transported hundreds of miles overland through one

of the largest pipelines in the world and how it is surfaced offshore and piped into waiting tankers. Gives a rich insight into that part of Americana concerned with transporting oil.
